

Didsbury & District Board of Trade.

The Didsbury & District Board of Trade held a meeting in the Legion Hall on Monday night, with the president, N. S. Clarke in the chair.

Mr. F. Dunlop reported that he and Mayor Reiber had interviewed Mountain View Municipality with regard to the connecting road to the highway and that they had obligated the Board to raise funds to assist in building the road. A committee was appointed to raise funds for this purpose.

The question of installing colored lights in the business section of the town during the Christmas season was discussed. Mayor Reiber reported that the town had decided to install five strings of colored lights across the streets in different parts of town.

It was reported that the Canadian Legion had declared their intention of vacating the hall they use at present at the end of the year. As this would leave the Scouts and Cubs without a meeting place, it was decided to appoint a committee to interview the Council and ask that financial assistance be given the Legion to enable them to carry on with the hall until a new hall, which they propose to build, could be completed.

A committee was also appointed to interview the School Board to see if arrangements could be made for the Spokes Club of the Junior Board of Trade to meet at the school.

The next meeting, which will be a supper meeting, will be held in January, when a speaker on some agricultural subject will be obtained. It was also decided to hold meetings both east and west of town in the near future.

At the close of the meeting a lunch was served.

School Trustees Elected by Acclamation.

J. M. Dundas for Div. 1 and W. H. A. Thomas for Div. 2 were both re-elected by acclamation in the election for school trustees for the Olds School Division No. 31, at the nominating meetings which were held on Monday.

The meeting for Div. 1 was held at Freestone School and for Div. 2 at the Olds School of Agriculture.

Both candidates were elected for a term of two years.

The hold-over trustees, who will serve for one more year, are W. H. Davies and J. H. Robertson.

The Boon of Living in Canada is Priceless!

Didsbury and District Expected to Raise \$1,000.00 for Red Cross Society.

The thank offering to the Red Cross Society from the town of Didsbury to date amounts approximately to \$500.00. The council of the Westerdale Municipality have made a grant of \$600.00 which will be divided between the Didsbury and Olds branches.

Didsbury and district are expected to contribute \$1,000.00. Any who have not yet contributed should do soon and any who wish to increase their donation so that the objective may be reached should notify the secretary or canvassers.

Fire Destroys the Ahlgrim Farm Home

Fire completely destroyed the farm home of Mr. W. C. Ahlgrim, 14 miles east of town, last Wednesday evening. The house was also occupied by Mr. Ahlgrim's son Floyd and family.

The family were all outdoors doing evening chores when the blaze started. The cause is not known, but it is thought that it was due to an explosion in the furnace.

When discovered, the fire had made such headway that it was impossible to save anything but a few pieces of furniture. All the family's clothing was destroyed. The loss is estimated to be upwards of \$4,000 and is partially covered by insurance.

Work has already commenced on temporary dwellings for the families and the house will be replaced next spring.

Obituary.

CHARLES M. BURNS

The funeral of Charles M. Burns, who died at the age of 40 years at the Lloydminster hospital on Tuesday, November 21st, was held at the Durrer Funeral Chapel on Monday, Rev. John M. Fawcett conducting the services. The remains were interred in the family plot at the Didsbury cemetery.

Born at Greenbank, Ontario, in 1899, he came with his parents, Mr. and Mrs. James Burns and seven brothers to Didsbury in 1901. He lived east of Didsbury until 1912, when he moved with his parents to the Hanna district. He settled in 1923 in the Lloydminster (Sask.) district and carried on successful farming operations up to the time of his death.

He is survived by his wife, May, and a 12-year-old son, James. Also three brothers, George, of Didsbury; Russell, of Sunderland, Ontario; and Spencer, of Watts, Alberta.

Besides Mr. and Mrs. Geo. Burns and family, other relatives present at the funeral were Mr. and Mrs. Spencer Burns and family, of Watts; Mr. and Mrs. Robert Burns; Mr. and Mrs. Kerr and Mr. R. Spencer, of Calgary.

The pallbearers, all old Didsbury friends, were Messrs. N. S. Clarke, Hugh McLean, Lloyd Hehn, George Sheils, Ed. Liesemer and Harold Oke.

Stores Open Wednesday During December.

All business houses will be open all day on Wednesdays during the month of December.

Work Started on Connecting Road.

The first furrow was plowed on Tuesday morning on the connecting road to the highway across the golf links.

The new caterpillar tractor which has been purchased by Mountain View Municipality will do its first work on this job and it is expected with the up-to-date machinery on job, it will be possible to complete the grade this fall.

Mr. McQueen, the government bridge engineer visited the project on Wednesday to make a survey for the bridge.

Didsbury Pair Win Judging Honors

Marion Levagood and Harvey Stevens, who were leaders in the judging competition of the Didsbury Dairy Calf Club, reached a high standing among the junior cattle judges of the province when they were awarded second place in the finals in the Dairy Cattle Judging Competition which was held at the University Farm at Edmonton on Friday last.

They took first place in the dairy cattle judging competition for the Central Alberta elimination contest, held at the farm of C. and J. Elwell, near Blackfalds. James Elder and Arthur Noad, of Olds, placed second, while third place went to the Springfield team of Robert Mitchell and Gerald Longway.

Judges of the competition were F. H. Newcombe, district agriculturist, Red Deer, and Wm. Mead, inspector of livestock, Olds School of Agriculture.

On Friday they went to Edmonton and took part in the final competition along with the winners of the other district contests.

Didsbury Health Society Annual Meeting.

The Didsbury Health Society held its annual meeting at the Legion Hall on Saturday with a good attendance.

The following officers were elected for the ensuing year:

President: J. C. Wiebe,
East Didsbury
Vice-President: E. Spillman,
Garfield

Directors:
E. Landeen, West Didsbury
D. M. Sinclair, Town
H. Roberts, East Didsbury

It was decided to close the books for the year on Saturday, Dec. 9th, 1939, and the secretary was instructed to be in attendance at the Rosebud Hotel on that date from 2 to 4 p.m. to receive applications for membership and to collect dues.

Evangelical Church Notes

"Foreign Day" will be observed next Sunday morning and a missionary sermon will be preached by the pastor. There will be a special offering for foreign missions.

At the evening service the pastor will speak from the theme "Can Living a Moral Life Save Us?"

Scouts Will Again Conduct Toyshop

For the second year Didsbury Boy Scouts are assuming the role of Santa's helpers in providing the town and district's unfortunate "have-nots" with toys, etc. this Christmas.

The boys will use their headquarters in the Legion Hall as "Santa's Workshop," where remodelling, repainting and overhauling will be done on contributions received for this worthwhile and noble cause.

Reconsider discarding those old, worn-out, broken and apparently useless dolls, toys, books, games, etc. Have the boys collect them and take them to their workshop. By doing so, you will help in gladdening the heart of some less fortunate youngster this coming Christmas morn.

If you don't know any of the Scouts personally, phone 101 and Scoutmaster Thomas will have one of the boys call and pick up your contribution.

Last year the Scouts were able by their effort to include a gift in every hamper sent out by the town. This year it is hoped that an equally good, if not better, response will be made in answer to the Scouts' Christmas appeal for toys, etc. for the "have-nots."

Polish Trees Run Blockade; Will Bear Fruit Here.

Several months ago A. L. Young, Brooks dairyman and prominent horticulturist, ordered some fruit trees from Poland. They grew high in the mountains, survived rigorous winters and were considered very suitable for the Alberta climate.

The war came, Poland was overrun by Nazis, and Mr. Young gave up all hope of ever receiving his trees.

Imagine his surprise, then, when the trees he ordered were unloaded on the C.P.R. platform the other night. They had survived the crossing of the war-torn Atlantic and were in good shape.

Mr. Young is now looking forward to developing the trees to the stage where they will bear fruit. His greatest pride is to cross varieties to produce hardy, prolific strains which will thrive in the unpredictable Alberta weather.

Knox United Church Notes

The service at the Knox United Church next Sunday evening will be in charge of, and conducted by, the members of the local group of the Women's Missionary Society. The Junior choir will render special music and lead in the singing. A hearty invitation is extended to you to attend.

The minister will conduct the services at Westcott and Westdale at the usual hours and speak on the theme "Ways of Finding God."

Omission

Mrs. Dunlop informs us that four boys' sweaters were omitted from the published list of articles sent by the I.O.D.E. to the evacuated British children. The sweaters were sent in from the country and the donors noticed the omission. We are pleased to make the correction.

Red Cross Notes

The I.O.D.E. have commenced a project of supplying sweaters to all the soldiers from the Didsbury District. The Chapter buys the wool and members and friends are doing the knitting. They expect to have them completed by Christmas.

Finished supplies are now beginning to be handed in at the depot. Up to the present 23 pairs of socks, 6 pairs of mitts, 3 pairs of gloves, 3 sweaters, 14 slings and 14 abdominal bandages have been handed in.

The committee for the cutting and distribution of sewing wish to have it known that there is quite a large amount of sewing now on hand to be done. It consists of abdominal binders and slings. This may be obtained from the Red Cross Depot at the office of W. A. Austin and the times as previously announced:

For Town 3 to 5 p.m. Wed
For Country 3 to 5 p.m. Sat

A committee member or helper will endeavor to be on hand at the Depot at these times to give out the sewing and to give any instructions if required.

If those who would be willing to help with the cutting at any time would get in touch with a member of the committee, it would be greatly appreciated. The committee is comprised as follows:

Mrs. John Hislop, convenor; Mrs. Cunningham, Mrs. Gooder, Mrs. Wigglesworth and Mrs. Halton.

Why Canada Fights

Canada has allied herself with Great Britain and France in the fight to crush Hitlerism and all that Hitlerism stands for, in the hope that as an outcome of the conflict peace and security for all nations may be guaranteed for a long time to come.

The foregoing in a general way sums up the average Canadian's reply to the question: "Why are we in this war?"

The reply may sum up the reasons in a very general way, but it is essential that Canadians understand specifically and remind themselves constantly of the reason for the necessity of crushing Hitlerism and this can best be done by a careful and analytical review of the events of the past six years in Europe and Hitler's record of broken promises.

This has been very ably set forth by the London Times and reprinted in pamphlet form under the title: "The Grammar of Aggression", in calendar form. A summary of excerpts of speeches made by Herr Hitler as Chancellor of the German Reich, combined with his various acts of aggression during the period under review constitute an indictment so clear that one can readily understand why war was inevitable.

Submitted in brief form the following extracts from Hitler's speeches and his contrasting actions tell a story which cannot be controverted:

Berlin, Feb. 10, 1933. The first and best point of the Government's programme is that we won't lie and we won't swindle.

Berlin, May 17, 1933. The German people have no thought of invading any country.

Berlin, Oct. 24, 1933. There are Germans and Poles in Europe, and they ought to live together in agreement. The Poles cannot think of Europe without the Germans and the Germans cannot think of Europe without the Poles.

Berlin, Nov. 10, 1933. When has the German people ever broken its word?

The Rights Of Others

Berlin, Jan. 13, 1934. The assertion that the German Reich plans to coerce the Austrian State is absurd and cannot be substantiated or proved. . . . The assertion of the Austrian Government that from the side of the Reich an attack would be undertaken or planned I must emphatically reject. . . . The German Reich is always ready to hold out a hand for the free will of Austrian Germans. . . . After the Saar question has been settled the German Government is ready to accept not only the letter but the spirit of the Locarno pact.

Berlin, May 21, 1935. Both we National-Socialists and the Bolsheviks are convinced that there is a gulf between us which can never be bridged. . . . So far as ever this Bolshevism draws Germany into its clutches we are the deadliest and most fanatical enemies. . . . Germany neither intends nor wishes to interfere in the internal affairs of Austria, or to annex Austria, or to conclude an Anschluss.

March 7, 1936. Germany reoccupied the Rhineland and denounced Locarno.

Berlin, March 7, 1936. After three years I believe that I can regard the struggle for German equality as concluded to-day. I believe, moreover, that thereby the first and foremost reason for our withdrawal from European collective collaboration has ceased to exist. We have no territorial demands to make in Europe.

Nuremberg, Sept. 13, 1936. We see in Bolshevism a bestial, mad doctrine which is a threat to us. . . . These are two worlds. In Bolshevik Russia there is devastation, grim murder and ruin. Here is laughter, happiness and beauty.

Berlin, Jan. 30, 1937. The period of so-called surprises is now over.

Berlin, Feb. 20, 1938. The Polish State respects the national conditions in this country, and Danzig and Germany respect Polish rights. Thus it has been possible to find the way to an understanding which, emanating from Danzig, in spite of the assertions of many mischief-makers, has succeeded in removing all friction between Germany and Poland, and made it possible to work together in true amity.

The Last Demand

March 11, 1938. Germany invaded Austria.

Berlin, Sept. 25, 1938. The Sudetenland is the last territorial claim which I have to make in Europe. . . . I have assured Mr. Chamberlain, and I emphasize it now, that when this problem is solved Germany has no more territorial problems in Europe. I have further assured him that at the moment when Czechoslovakia has solved its other problems, that is, when the Czechs shall have come to an understanding with their other minorities, I shall not be interested in the Czech State any more, and that, so far as I am concerned, I can guarantee it.

Berchtesgaden, Jan. 1, 1939. In general we have but one wish: that in the coming year we may be able to make our contribution to this general pacification of the whole world.

Berlin, Jan. 30, 1939. Only the war mongers think there will be a war. I think there will be a long period of peace.

March 15, 1939. Germany seized Czechoslovakia.

March 21, 1939. Germany annexed Memel.

Berlin, April 28, 1939. The Czech nation, with the sum total of its skill and ability, its industry, its diligence, its love of its native soil and of its own national heritage, deserves our respect. . . . That which the best and wisest Czechs have struggled for decades to attain is, as a matter of course, granted to this people in the National-Socialist German Reich, namely, the right to their own nationality and the right to foster this nationality and to revive it.

Aug. 21, 1939. Germany signed a pact with Russia.

Sept. 1, 1939. German invaded Poland.

Berlin, Sept. 1, 1939. I will not war against women and children. I have ordered my air force to restrict itself to attacks on military objectives. The bombing of Polish open towns began on the first day of the war.

Sept. 3, 1939. The Athenas was sunk.

Shopping Is Difficult

Permit Is Required For Purchase Of Clothing In Germany

If you were in Germany-at-war and wanted to buy a pair of socks, don't think you could simply enter a men's furnishing store and buy socks at a price and color suited to your needs.

If you, milady, felt you needed an extra pair of "undies", don't think the saleslady at a dry goods store would serve you without further ado.

In either case you would be asked, "Where is your 'bezugschein'?" It has become a magic word.

It is a certificate entitling the holder to buy a stated article and sometimes it is hard to persuade a hard-boiled official that one needs new socks or underwear.

All over the country and in every city at numerous places, there are "war economy offices." If the officials can be persuaded of the absolute need of the article in question, he will issue a "bezugschein" or authority to buy, which is taken up by the shopkeeper where the purchase is made.

So long as a man can call two pairs of socks his own, he must do some tall explaining before he is given permission to purchase still another pair.

Owners of restaurants are also frequent visitors to the local or district war economy office. They must be able to demonstrate that, despite unusual care, the wear and tear of their serviettes and table clothes has been such that replacement is essential for keeping up the good name of the establishment.

Hospitals are in a preferred class. The authorities realize that in wartime it is more essential than ever that utmost cleanliness prevail. Hence hospitals find no difficulty in obtaining "bezugschein" for all the textiles of various kinds they may need.

DAINTY APRONS ARE FUN TO SEW

By Anne Adams

It's fun to try out new recipes if you've a winsome apron to work in. Both of these gay aprons are from the same easy Anne Adams Pattern 4285; both have full, bias skirts and basque-effect bodices. See how the back waist is cut in a graceful high curve for nice fit. The criss-cross straps are non-slipping. Aren't the pockets unusual? They are in "Dutch-Girl" effect and are roomy! Make the neckline straight or scalloped. . . . use ruffling or ric-rac trim. . . . and, if you like, add vivid color with straps, back bow and pockets of contrast.

Pattern 4285 is available in sizes small, medium and large. Small size, view A, takes 2½ yards 35 inch fabric and 5½ yards ric-rac; view B, 2½ yards 35 inch fabric, ¾ yard contrast and 1½ yards ruffling.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this Anne Adams pattern. Write plainly Name, Address and Style Number and send order to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

Air is 20 degrees cooler inside a Panama hat. 2333

RADIO "A" BATTERIES

For every purpose and purpose!

New this year—a battery embodying all the advantages and exclusive characteristics of the "Eveready" A-2600 "Air Cell" 1000-hour battery—yet selling at the low price of \$4.50. This is a medium-sized battery, which is guaranteed in writing for a minimum of 500 playing hours. No recharging. It lives on air—\$4.50.

This is the famous "Eveready" "Air Cell" A-2600 battery—a best-seller for several years. It provides the most economical source of "A" power, as it is guaranteed in writing to serve for a minimum of 1000 playing hours. Save money and improve reception by buying this "Air Cell" battery now. \$7.50.

There is a limited number of radio sets which have a heavier-than-average current drain. For these sets there is a specially designed "Eveready" "Air Cell" battery—No. SA-2600. Ask your dealer—he'll tell you whether you need this model. If you don't—choose either the \$4.50 or \$7.50 "Air Cell" battery. The SA-2600 is \$9.00.

For the new 1.4-volt radio sets, the most satisfactory and economical source of "A" power is the new A-1300 "Air Cell" battery—specially designed this year for this purpose. This is a smaller "Air Cell" battery, developing generous power for sets using the new 1.4 tubes, and giving perfect service throughout an exceptionally long life. \$2.95.

This year, follow the swing to "Air Cell" batteries and save yourself all the trouble and expense of periodic re-charging. Notice the new "Air Cell" battery for regular 2-volt sets at the low price of \$4.50. Each of the four "Air Cell" batteries illustrated operates on the same exclusive principle, found in no other "A" batteries. No re-charging is necessary—the "Air Cell" battery lives on air throughout its long life! Your dealer sells them.

Skiing, as a sport, is of fairly recent origin. As a means of transportation it antedates written history. The first weather observations on Mount Washington, New Hampshire, were made in 1870 under private auspices.

The world's largest power dam is said to be that on the Dnieper river in Soviet Russia. It was built by American engineers. Previous to the horseshoe method of hoof protection for horses, socks or sandals were used for the horses' feet.

ROYAL GUARDS AGAINST BAKING FAILURES . . .

— BECAUSE IT'S ALWAYS PURE, FULL-STRENGTH

IN THE AIRTIGHT WRAPPER

Trans-Canada Air Lines Playing Important Part In Dominion Transportation

Trans-Canada Air Lines to-day took a gigantic step towards the Atlantic—a step that moves its easterly terminal from Montreal to Moncton. Ground facilities in this new section now are complete and from to-day what are called "familiarization" flights from Moncton to Montreal will be made on a daily schedule. These are for the purpose of testing out the route, making pilots acquainted with the terrain, of guarding against mischance so far as is humanly possible. Mails will be carried in the process of "working in" this section of the continental route, but passengers will not be transported as far as Moncton for probably months.

This development of the Trans-Canada system, and the fact that ground work now is in progress on a "leg" from Toronto-Windsor, where connections will be made with the great United States air lines, make the time opportune for a brief survey of a very notable accomplishment in air transport.

Trans-Canada Air Lines has been carrying passengers only since last March. But before that eventful date there was a long period of preparation. The provision of airports and landing fields, of radio beams and weather reports, was a tremendous task. There was the training of pilots, the perfecting of them in the use of every known aid to safe "chain" flying, but so carefully and thoroughly was the work done, and so painstaking are the daily operations on land and in the air, that since the inauguration of scheduled flights there has not been an accident of any consequence.

The actual beginning of aerial operations on the Trans-Canada was no farther back than February 1, 1938, when a training service between Winnipeg and Vancouver was opened. Mail service between those points was established the following October. Meanwhile training flights had commenced over the Winnipeg-Montreal section, and before the end of the year mail and express was being carried.

On March 1 of this year a through service for passengers, mail and express between Montreal and Vancouver was opened, with branch lines to Toronto, to Edmonton, and on the coast to Seattle, Washington. The extension to Moncton is the next step, as we have seen, and from that point to Halifax is a development not long to be delayed. The Trans-Canada then will have achieved the proud ambition expressed in its name.

The Trans-Canada possesses a fine fleet of sturdy, dependable aircraft, manned by Canadian pilots experienced in Canadian "bush" conditions and trained in instrument flying, and managed by Canadians. The pilots have the safeguard of a guiding radio beam from Vancouver to Moncton and on the branch lines. A complete and nation-wide weather service operates for them 24 hours a day, and within the limits of meteorological knowledge they are acquainted with present and probable conditions aloft.

There is a fully equipped airport with adequate runway every 100 miles across Canada, and in addition about 70 emergency landing fields. Incidentally, much valuable preliminary work on these airports was done in the early days of the depression by young men who sought refuge from the economic hurricane in the Government labor-relief camps.

Thus the physical and human equipment of the Trans-Canada. A few statistics shows the magnitude of its part in the Canadian transport picture even in so short a period of its existence.

Up to the end of September last, from its inception, the line had carried 16,606 passengers, 702,291 pounds of mail, 40,216 pounds of express. Between September 1, 1937, when preliminary work was really begun, and September 30, 1939, Trans-Canada machines had flown 4,301,826 miles, of which 3,121,357 were revenue-producing trips and 1,180,469 were non-revenue and training.

Revenue "passenger miles" reached the prodigious total of 8,390,015.

and as 16,606 passengers were carried this means that each passenger paid his fare for an average of about 500 miles. Trans-Canada pilots to the end of September had put in 27,233 hours in the air, 19,848 of them being on revenue business, 7,385 non-revenue and training.

But nothing so dramatically emphasizes the importance of this aerial link in Canada's chain of unity as a study of the time-table.

The run from Montreal to Moncton is being done in two hours and 20 minutes—the train takes exactly 16 hours longer.

The passenger who leaves Montreal tonight at 9 o'clock is in Ottawa 50 minutes later, is in Winnipeg long before daylight breaks over the prairies, arrives in Vancouver at 11:10 to-morrow forenoon. As he sets his watch back three times, that is really 17 hours and 10 minutes elapsed time. On the return journey he leaves Vancouver at 6:15 in the evening, reaches Montreal at 12:15 the next noon. As he moves his watch forward three hours in the journey his elapsed time is 15 hours.

Moncton adds two hours and 20 minutes, and from Moncton to Halifax, when that section is opened, will add less than another hour. This means that the flight from Halifax to Vancouver will be made in about 20 hours, from Vancouver to Halifax in 18. Prevailing winds hinder the westbound machines, help the east-bound, and explain the difference in the two schedules.

Such is, in brief and sketchy form, an outline of a great national development of which every Canadian has much reason to be proud. Already we take it for granted as an ordinary and accepted feature of Canadian transportation, and increasing numbers of people use its services because it reduces actually by day the time of moving mail and passengers across the country.

We should not forget, however, that Trans-Canada Air Lines is conspicuous among the great air lines of the world for efficiency and safety, a tribute to the skill and competence of those who have brought it to its present status.—V. M. K. in Ottawa Journal.

The Mopper Uppers

Would Like Change Made In Etiquette Note Regarding Gravy

Some time ago Mrs. Emily Post placed her imprimatur on dunking doughnuts on informal occasions. This was followed by a world's championship contest at the World's Fair in New York, the "winnah and champeen" being a lad who had an unfair advantage over the other contestants inasmuch as he was a New York Italian and had been trained in the art of manoeuvring macaroni. Mrs. Post should be called into service again to pronounce upon a declaration of the American Bakers' Association that mopping up gravy with a piece of bread should be permitted. The bakers have a professional interest in this because they realize more bread would be used if the dainty diner were not dissuaded from helping himself to another slice in order to absorb the rich and luscious looking liquid that would otherwise be wasted, spooning it up not being socially authorized; and, of course, the gravy rolls off a knife.

There are some incorrigible husbands who give their wives nervous breakdowns in company by sponging up the gravy, chasing it into a corner from which it cannot escape or backing it up against a Maginot Line of mashed potatoes. But such practices are frowned upon at parties and sometimes in the privacy of home by fastidious wives.

In these days when it is nothing short of criminal to waste good food, something should be done about it. We look encouragingly to Mrs. Post. If the barriers are down on dunking they could surely be modified on mopping.—St. Thomas Times-Journal.

Forty million flowers were shipped from Cornwall, England, last year.

Four tons is the average weight of an elephant.

Business As Usual

London Firms Move Their Offices To The Country

Everywhere in wartime England the now-hackneyed "business as usual" signs appear, but business is carried on in some unusual places.

The situation is as though Toronto concerns moved headquarters to Orillia or Montreal's big financial houses of St. James street set up shop in the Laurentians.

Panelled drawing rooms of great country houses resounding to the clatter of typewriters, barns on big estates converted to dining rooms and old hotels jolted from slumber by jangling telephones are features of this decentralization of British business.

Workers accustomed to stuffy offices in narrow London streets now have a view of the rolling English countryside while they toil. They miss the bustle of traffic, the fight for places in crowded lunch rooms; but whether they enjoy it is a matter of conjecture.

"You know the Englishman always likes to grouse," said one country businessman. "Some miss the cinemas and others complain of slow service but altogether its rather jolly."

"Why in our office, the girls are putting on weight. So the food and country air must be good."

In some cases the trek to the country started before war was declared. Businessmen found no scarcity of places to choose from after the outbreak.

"The first week of war, we were asked to rent nearly 3,000 country homes," said an official in a large London real estate firm.

Indians Conserved Soil

Pre-Historic Cliff Dwellers Built Check Dams Centuries Ago

The value of sound conservation practices was recognized seven centuries ago by prehistoric cliff-dwelling Indians in Colorado. It has been discovered through surveys by the National Park Service in Mesa Verde National Park. Hundreds of check dams, built to increase the available acreage of tillable land, present visible evidence of their far-sightedness.

Research of the Park Service has developed that the cliff dwellers were dry farmers who had to cope with many of the problems that to-day harass dry farmers of the United States.

Their object in building the small dams in the low draws and washes was to increase good arable land. The run-off of seasonal rains deposited fine, rich earth behind the dam, gradually filling them to the top. Hundreds of small plots of rich soil resulted, each capable of growing a few hills of corn, beans or squash. It was a type of terrace farming still practiced by the modern Hopi Pueblo Indians of Arizona.

Woman: "Do you like my new hat?"

Friend: "How was that?"

Woman: "I cut down on my husband's lunch and tobacco money."

During 1937, the Dominion of Canada produced 32 per cent. more pig iron than in the preceding year.

Crochet These To Keep Her Warm

Household Arts by Alice Brooks

Easy Cap Scarf Mittens Hat Rib Stitch Trim

PATTERN 6504

Any little girl will be overjoyed to find this woolly set in her Christmas stocking. It's done in simple crochet. Pattern 6504 contains directions for making cap, scarf and mittens in a 4, 6 and 8 year size; materials needed; illustrations of them and of stitches; color schemes.

To obtain this pattern send 20 cents in coins (stamps cannot be accepted) to Household Arts Department, Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

Magnitude Of The Task Of Furnishing Supplies To British Expeditionary Force

Money In The Attic

Many People Have Discarded Articles They Could Turn Into Cash

The great majority of householders miss a simple opportunity to garner some cash for themselves and at the same time dispose of articles that not alone clutter up the premises but also keep on deteriorating until they are no longer of any value.

The reference is to the general habit of leaving discarded articles of many kinds to remain in the home instead of disposing of these while they are of some value. In basements, in attics and in store cupboards in thousands of homes in this country there are collections of discarded merchandise that readily could have been converted to cash had the owners resorted to an inexpensive enterprise, the advertising of such articles in the classified section of a newspaper. A few people have discovered that method of disposing of the unwanted merchandise that inevitably accumulates in every home but the average householder neglects to dispose of such and thus misses an opportunity to turn waste into money.

It is surprising the magnitude of the market for what is generally regarded as useless articles. The list includes lamps, stove, baby buggies, chair, settees, ironing boards, step-ladders, electrical fixtures, clothing of all kinds, suitcases and scores of other articles that have served their day in the home environment but have been displaced and discarded. These articles are always sought by someone else and the inexpensive classified advertisement in the daily paper in almost certain to find buyers.

It is truly surprising how few householders have become acquainted with the interesting business that they can attract by judicious use of the small advertising columns of the newspaper to dispose of goods that are no longer of any use to them. If the rank and file of householders once became familiar with that medium for turning waste into cash, the small ad columns of papers would be the most widely patronized of all.—Woodstock Sentinel-Review.

Has Helped Business

Pittsburg Newsboy All Dressed Up To Sell His Papers

A novel idea is booming business 100 per cent. for newshawker Leo Spinelli of Pittsburg. He's dressing for work. Downtown theatre and late supper crowds now get their favorite newspaper from a smiling, curly-haired young man replete in dinner jacket, shining white bosom shirt and highly polished shoes. Spinelli offers his wares in a softly-modulated voice.

The characters to note in studying trees are: leaves, flowers, fruits, bark, buds, bud arrangement, leaf scars and tree form.

Details as to the magnitude and complexity of the task of keeping the British Expeditionary Force in France supplied with all its needs are given to the world by Reuters diplomatic correspondent.

An army corps of two divisions needs 70,000 gallons of petrol daily, he wrote. The supply depot which deals with fuel has to keep in stock large quantities of the more than thirty items which comprise the soldier's diet, as well as the fuller range of hospital stores over 100 items from arrowroot to champagne.

Fresh meat is supplied to the troops as often as possible, but this has to be duplicated with tinned food. At present more than 3,000 tons of food is supplied to the troops from the United Kingdom.

One thousand tons of bread and biscuits is baked daily by field bakeries. Fresh vegetables are provided daily through the co-operation of the French government.

A main base is established at some place considered a thoroughly safe area. Here all commodities of every sort or kind are stored. The base is not a compact mass, but a series of depots scattered over a large area.

The formation of the base ammunition dump provides some of the most difficult problems. This, owing to the danger of explosion, has to be divided into sections, each separated from the others by folds and rises in the ground.

To prevent any possible disorganization of supply, a duplicate main base has been set up some hundreds of miles from the other. Each of these bases is capable of maintaining the whole or part of the army.

There are also field depots which are capable of maintaining the army for some days. These are always so placed that there is no possibility of a "bottleneck" between the depot and the troop, which might endanger the transportation of supplies.

Supplies set out on their journey from the base to the front in pack trains. Each type of train has its own depot.

About 120 tons of food supplies are needed for a corps daily, and it may use as much as 600 tons of ammunition in a day's heavy fighting.

From the railhead the material goes up by road in military transport supplied by the Army Service Corps. Each division requires 470 vehicles for this purpose alone.

There are now 7,000 vehicles and 2,000 motorcycles in France belonging to the A.S.C.

The R.A.F. has also supplied the army, the only difference being that in their case the supplies are carried from the railhead in R.A.F. lorries.

Repairs are dealt with by the forward light aid detachments if minor, and at the division army headquarters if more serious. Heavy repair shops are in the back area. If the damage is too great even for these, the damaged article is shipped home and handed over to the ministry of supply.

Similarly, there is no waste in this war. Everything, even junk, is shipped back and either utilized in France or handed over to the ministry of supply. Metals can be melted and even damaged food can be used to obtain fats which can be turned into cordite.

The whole of the vast work of maintaining the B.E.F. in the end comes to the shoulders of one man, the quartermaster-general in France, Lieut.-General W. G. Landell.

The Wrong Place

British Recruit Told Where Not To Display Patriotism

An enthusiastic young recruit went on parade with a tiny Union Jack pinned on his tunic. The sergeant-major could not believe his eyes, but, making allowance for the youth and keenness of the lad, and suppressing his natural emotions with an obvious effort, he said not unkindly: "Look here my lad you try to remember you're in the British army now. We don't want none o' yer blinkin' patriotism here!"

Only those persons living near the equator are able to see all of the star constellations.

The World of Wheat

By H. G. L. STRANGE

Director "Crop Testing Plan"

"The drought consumes us.
There on high
The hills are parched, the
streams are dry.
The drought consumes us
Still I strive.
And will not leave while
I survive."

—Chinese poem from the Shi King collection of Confucius.

That drought in the large wheat areas of the world is a common experience which is revealed by this ancient Chinese poem, the author of which is unknown, but which was written certainly more than 2,000 years ago.

The farmers in the southern areas of our Prairie provinces have suffered severely from a long series of bad drought years. Most of our farmers did not leave their land, but on the contrary they strived as long as they could survive, just as did the ancient Chinese farmer poet.

And this last year, their patience was rewarded, for normal rainfalls once again came, bringing with them bountiful harvests of grass, forage crops and of high quality grain.

This experience has demonstrated to the whole world, in a most dramatic fashion, the remarkable recuperative power of the soil and of the wheat plant, and most particularly the recuperative power of the courageous farmer himself.

Following factors have tended to raise prices: Embargo against wheat shipments to the Lakehead has been lifted. Winter wheat crop conditions in U.S.A. are still indicated as the worst in record. Great Britain is buying generous quantities of Canadian wheat. Searle reports subsoil reserve moisture prairie provinces very poor. Australian and Argentinian crop threshing less than expected.

Following factors have tended to lower prices: Canada, Australia and Roumania increase wheat surplus figures. Much needed rains received in Russia. Hungary expects an exportable bean surplus of approximately 15 million lbs. Dominion Bureau of Statistics estimates wheat crop for all Canada at 479 million.

Doubleheader at the Movies

There will be variety aplenty at the movies this weekend, with a double feature on the bill.

"Love Is a Headache" offers Gladys George and Franchot Tone in a delightful melange of romance and comedy concerning Miss George as a beautiful stage star involved in a mix-up over some orphaned children. Mickey Rooney and Virginia Weidler, caused by Broadway's ace columnist, Franchot Tone.

Then, in the other feature, fightin' mad and rarin' to go, Hopalong Cassidy avenges a gallant woman against fighting odds of 100 to one in a stirring Western. "Bar 20 Justice," featuring William Boyd, complete with six-shooters, bad men, sheriff posse, several fights and all the hoof

Cash Grants to Municipalities

Foothills-Little Bow Municipal District Association has been very persistent in asking that cash grants be given to municipal districts for roadwork. The proposal has been that the municipalities match the grants on a fifty-fifty basis.

Hon. W. A. Fallow is considering this plan, in the hope that something may be done to meet the municipal suggestion. One of the reasons why this has not seemed feasible, according to the minister, is that already many municipalities owe the government substantial arrears on account of secondary highways. Mr. Fallow said in encouragement however, that the present plan of working out arrears on roadwork is merely an emergency measure and must not be regarded as permanent.

The government collects a tremendous sum in annual revenue on gasoline, motor and drivers' licences and so on. This revenue is not shared on any equitable basis with the lesser governing bodies which must maintain secondary roads. The main highways have been brought to a good standard of service, through the contribution of many people who use them very little. But secondary roads, which are of great importance as connecting links, are left to a large extent to the very limited resources of the municipal district. At 7 cents for every gallon of gas which he uses, the average farmer pays quite a tax each year for the upkeep of roads. Yet the bulk of his travel may be on secondary roads, and he therefore gets no adequate return from the government for the money which is taken from him for roads. —Vancouver Advocate.

Bergen Notes.

Reider Erickson shot a fine moose just beyond Moose Mountain.

The timber inspector was at Bergen last Tuesday, checking up on the timber.

Bob Stevens bought a 65 horse-power Case engine from Chas. Erickson last week. Boys, stand back a mite!

Rev. Earl Archer is in Calgary under the care of Dr. McGuffin. His amputation has been bothering him for months.

Glen Goodland's wife held a sale last Wednesday at their place, N.W. 18-32-5-5. Archie Boyce obtained good prices except for the horses.

Mrs. Lutkehaus, who has gone to her reward and was buried in Bergen Cemetery some weeks ago, is sadly missed, while Ben has the sympathy of the entire community.

Oluf Sande, Ralph Grant and Leonard Mikkelsen have taken wives for themselves from far and near, while there are others we might mention who are making rapid preparation.

**SALMON SANDWICH DE LUXE**

Remove bones and flake one small can of salmon. Mix with 2 tablespoons horseradish, 1 teaspoon lemon juice, 4 tablespoons mayonnaise, seasonings. Spread generously between bread slices; spread outside of each sandwich with melted butter, toast on both sides under low broiler heat until brown. Pour over the sandwich a sauce made of melted cheese.

POTATO AND FISH CASSEROLE

Flake one pound of canned or cooked fish and place in casserole. Slowly melt 1/2 lb. cheese in double boiler; stir in 1/2 cup milk. Pour this over the fish. Cover the mixture with mashed cooked potato, and line the rim of the casserole with unbaked biscuits. Bake in hot (425°) oven until biscuits are done.

ERRORS IN SPEECH A SOCIAL HANDICAP

Make Your Talk Top-Grade

"I never want to go inside that club again! How catty those women were, pretending they didn't know what I meant when I called Tom's formal clothes his soup-and-fish."

The woman whose speech bristles with crude slang is sure to feel uncomfortable with people whose talk is charming and correct.

They can't conceal their amazement at such remarks as "That KID hit the old man on the BEAN with his slingshot." CHILD and HEAD are the words more cultured speakers would use, as she could easily find out.

Error in English provokes amused comments, too. Wrong to say "Mary wanted to borrow a hat OFF me, but I wasn't TO home." Correct is "Mary wanted to borrow a hat FROM me, but I wasn't AT home."

And do you risk boring by calling everything you like "fine," everything you don't like "terrible"? Are you vocabulary-poor?

From our 32-page booklet learn how to build a large, vivid vocabulary, give zest to your talk. Lists common errors, correct forms, slang phrases to avoid. Gives right meanings of word often misused, pronunciation tips.

Send 15c in coin for your copy of "How To Improve Your Vocabulary" to Home Service Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

The following booklets are also available at 15c each:

- 130—"World's Best-Loved Poems".
- 159—"Build Your Own College Background".
- 164—"Party Games For All Occasions".

SELECTED RECIPES

BUTTERSCOTCH PIE

- 4 tablespoons Benson's or Canada Corn Starch
- 1/2 teaspoon salt
- 1/4 cup cold milk
- 1 3/4 cups scalded milk
- 1/4 cup butter
- 1/2 cup brown sugar
- 1/4 cup Crown Brand Corn Syrup
- 2 egg yolks
- 1 teaspoon vanilla

Mix corn starch and salt to a paste with cold milk. Add slowly to hot milk, stirring until thick. Cover and continue cooking for 10 minutes, stirring occasionally. Melt butter in an iron frying pan; add sugar and stir until brown and bubbly. Add Crown Brand Corn Syrup and blend well. Add caramel mixture to hot corn starch mixture and continue cooking until well blended. Pour hot mixture over slightly beaten egg yolks. Return to heat and again cook for three minutes. Cool slightly; add vanilla and pour into a 9-inch baked pastry shell. Cover with meringue and brown in a slow oven.

FRUIT DROP BISCUITS

- 2 cups sifted Swans Down Cake Flour
- 2 1/2 teaspoons Calumet Baking Powder
- 2 tablespoons sugar
- 1/2 teaspoon salt
- 4 tablespoons butter or other shortening
- 3/4 cup milk
- 1 cup chopped pared apple
- 1 1/2 teaspoons grated orange rind
- 1/2 cup finely chopped raisins.

Sift flour once, measure, add baking powder, sugar, and salt, and sift again. Cut in shortening. Add milk all at once and stir carefully until all flour is dampened. Add remaining ingredients and stir vigorously until mixture forms a soft dough that clings to sides of bowl. Drop from a teaspoon on an ungreased baking sheet. Bake in a hot oven (450 degrees F.) 12 minutes, or until done. Makes 18 biscuits.

Might Be Safer

"I tried a new song before the manager this afternoon, and asked his opinion whether I ought to walk off or dance off after I had sung it."

"What did he advise you to do?"

"He said: 'If I were you I should run off.'"

Workers in Shanghai, China, complain that wage increases have not kept up with rising living costs.

Northeastern Arizona has a natural bridge formed by a petrified tree.

Chemicals For Insecticides

Canada May Be Able To Produce Own Supply From Mineral Resources

Chemicals which are used as insecticides, and fungicides, of which there are legion, will be necessary in substantial quantities during the war as they are in normal times. In order to conserve and maintain supplies, the Agricultural Supplies Committee has established, under its direction, a Pesticides Committee.

A survey of the prospective supply of most of the essential materials has been made and it would appear from the information obtained that the quantities available for 1940 promise to be generally satisfactory, provided that imports can be continued from Great Britain and the United States, the principal sources of supply.

Efforts are being made to promote Canadian production of such materials as copper sulphate and the arsenicals so that the Dominion can be independent so far as these are concerned. Fortunately, Canada has wide possibilities for manufacturing most chemicals, particularly copper and arsenic, due to the country's rich mineral resources.

Inventors Are Busy

New Gadgets Designed To Keep Bed-Clothes From Slipping

With the approach of winter, inventors have turned their talents to keeping mankind warm.

The United States patent office sent out patents for the following:

A bedclothes adjuster a gadget which promises to keep them straight. It is the brain child of Herman E. James, of Los Angeles.

A coverlet with flaps a device which makes kicking the covers off or losing them in the night impossible. It was thought up by Eugene Weisbender, of Manhattan, Kansas.

An electric hot water bottle heater—eliminating that horror of the middle of the night when the hot water bottle has lost its warmth—patented by Riley Emery Larkey, of Kansas City, Mo.

Friends During Winter

South and Central America present a strange array of bird life in winter. Birds whose summer habitats are entirely different hobnob together during their stay in the tropics.

In 1907, 328,452 inhabitants of Austria-Hungary emigrated to the United States. This was the largest number of people to move from the country to another in a single year.

Doing business without advertising is like winking at a girl in the dark; you know what you are doing but no one else does.

Does your nose tell the painful story of your discomfort—soreness and stuffiness in the nostrils, irritated membranes? Get quick relief. Treat your nose with Mentholum, the pain with the money-back guarantee! Mentholum acts instantly—penetrates every nasal passage—soothes inflamed membranes—helps clear head and nose. THE RIVER OF SKULLS
by George Marsh© PENN PUBLISHING COMPANY
WNU SERVICE

CHAPTER VIII.—Continued

Rapidly the winter shut in and the frost strengthened. Farther and farther out the ice sheet reached in the lake and, near the shore, became so thick that they raised their nets. But the big cache was now piled high with frozen fish.

Twice, when the river closed, they drove the dogs down to the cabin on the Talking to find all well with John and Heather and no news from McQueen.

And then, at last, came the Montagnais "Moon When the Snow Hangs in the Trees", and, in the middle of December, Alan and Noel started with the dogs to search for the headwater lakes of the Koksoak.

Over the barrens flanking the valley of the Sinking Lakes, they travelled into the northeast. But it was a long-faced Noel who trotted behind the eager dogs over the sparkling tundra.

"No one eavir go into dis cuntry and come back," he reminded Alan as they stood on a high barren and gazed over the undulating white waste to the north and east, seemingly aflame as the sun slanted across its limitless expanse.

Send for a free copy to Standard Brands Ltd., Fraser Ave. and Liberty Street, Toronto, Ont.

"Well," said Alan, dropping his mitten slung to his neck by a thong and wiping the rime from his face with a bare hand, "someone always has to be first, eh, Rough?"

For days they travelled north of the valley of the Sinking Lakes but, in that direction, beyond the dim blue hills they had often seen from the valley, they found no water courses flowing north; no headwater lakes.

One morning they headed into the southeast. In the sparsely wooded valleys, snow-white Arctic hares, their long ears tipped with black, jumped from willow thickets to race away at the coming of the dog-team. Once, at a distance, three curious white foxes danced grotesquely on the snow, inspecting the approach of the team, until the excited dogs, getting their scent, set up a frenzied yelping which drove them away over the tundra, like wisps of white smoke.

Because of the wood, the boys had stopped in a small valley, where a stream headed, to boil their kettle. After eating, they continued south and came out of the fold in the hills to higher country. As Alan, who was leading the team, reached the lip of the valley and looked far into the east, he raised his hands with a shout.

"Noel!" he cried. "Look at that lake over there! We've found it!"

Noel joined him and the two gazed in amazement across the tundra. There, miles away to the east, be-

"Noel!" he cried. "We've found it."

yond the low hills of the foreground, reached the level, white shell of an enormous lake, until it was lost in the haze of the distance.

"Why, it's as big as Lake Bienville on the Great Whale, Noel!" exclaimed Alan excitedly. "This must be one of the lakes in the old men's tales."

The Indian stood in awe gazing at the white reaches of the distant lake. Far to the north and south stretched the shimmering floor of snow and wind-scoured ice, and into the east, until it merged with the horizon.

"Eet ees ver' beeg lak," he said. "Big riviere flow out of dis."

"And that river must be a head-water of the Koksoak!" cried Alan. "We're over the Height-of-Land. The rivers all run north, here! We've found it, Noel! We've found it!"

That night the boys camped on the shore of the great lake in the wind break of a stand of black spruce.

While the dogs lay curled in the sleep-holes, Alan and Noel talked beside a roaring fire.

"We'll travel right around this lake until we find the outlet, Noel. Then we'll hunt to find a way to get into it with the canoes from the Sinking Lakes."

"Mebbe dis lak' not flow into de beeg riviere."

"Noel, this lake is surely the headwaters of the big river, or of one of its branches. It's got to be, flowing north as the river does. And we'll soon find out."

Snug in their caribou sleeping bags, the tired boys slept beside their fire. In the morning, they started along shore over the wind-brushed ice in search of the outlet. All day they travelled rapidly north until, shortly after noon, when the light died, they were at the end of the lake, but as yet had found no outlet which would lead, as they hoped, into the north and the great Koksoak. The next morning they saw what appeared to be a long island lying off the shore. Cutting in beyond the island they found that the lake reached to the north, like the fingers on a hand, in three separate bays. And from each of these ran an outlet.

"Look, Noel," said Alan, as they stood on a low hill and followed the channels of the three streams with the binoculars. "These outlets run right into the north through a flat valley and must join, later. I tell you we're on Koksoak water. To the east the ridges all run north and south—not a break in them. We've found it, boy! We're on the Koksoak!"

The Indian nodded his head in agreement.

"Now we'll follow the east shore and see if this is the main discharge. Some of these lakes have two. But I'm positive no water could run to the east; from the lay of the country, it's bound to travel north."

With the boys riding the toboggan, away galloped the dogs along the eastern shore. In an hour, looking across the wide expanse of ice into the southwest they could barely see the white hills from which they had discovered the great lake. In places, the hard snow, carved by the wind, rippled away for miles like white waves; in places the ice was scoured almost clean of its snow blanket, making sledding a delight. On, up the east shore, the eager dogs took them at a gallop. But at noon the sun in the south was gradually smothered in haze. To the north banks of lead-colored clouds piled above the white hills.

"Snow comin'," announced Noel, as they stopped to give the dogs a breather.

"Sure enough!" agreed Alan. "What do you say to crossing the lake to the camp we had two nights back in that thick timber? It may be an old drifter and last for days. With the hills running as they do, there's no outlet from this side. After the blow we'll make sure."

"Eet ees far across there. We have to hurry."

"But we've got the dogs to make it. Haven't we, Rough, old boy?"

Alan went to the great dog sprawled on the wind-hammered snow, and rubbed his ears as he looked into the slant eyes.

"You take the team across this lake before that snow comes, Roughy?"

Rough answered with a red laugh as his breath rose like smoke on the biting air.

CHAPTER IX.

Back in their windbreak of black spruce, the boys holed in for the storm. For three days the "drifter" pounded the barrens, driving every living thing, furred or feathered, to the sanctuary of the spruce or to snug burrows in the snow. The morning of the fourth day when the sun, flanked by two brass balls of sun-dogs or false suns, lifted above the horizon while the skies to the north and west were still a dense blue-black, the wind had died. With the stinging air shot with glittering snow crystals, their frozen breaths trailing behind them like smoke, men and dogs started for the head of the lake. Along the shores the wind had heaped huge drifts but much of the lake ice had been scoured of snow. Camping at the head of the lake, the following day, they started over the young snow for the shoulders of the nearest hill to search for a spring water route from the Sinking Lakes.

Here in the timber the boys broke trail on snowshoes ahead of the team for there was three feet of new snow and, without firm footing, the dogs wallowed to their shoulders. Everywhere, the night before, the wild creatures had travelled in search of food after the storm.

At last Alan discovered a water route to the big lake, by way of a chain of ponds lying on the Height-of-Land. The object of their exploring trip was accomplished.

The Montagnais' "Great Moon" of January with its searing winds and nights when the lake ice split with the boom of muffled artillery and the spruce snapped under the contraction of the frost, rode over the barrens, followed by the "Moon of the Eagle." Night after night the aurora lit the white tundra and streamers of pearly mist writhed across the heavens beneath stars that shone through with a spectral blue. "The Spirits of the Dead at Play," the Eskimos call the dancing lights of the polar heavens.

Often fearful for the safety of the man and girl wintering on the Talking-river trail behind their galloping ing, Alan and Noel rode the ice dogs.

More than once during the winter, John had crossed strange snowshoe trails. Some were the bearpaw prints of the Montagnais and some the long shape of the coast Cree. The cabin on the Talking was being watched. McQueen was biding his time—waiting to follow the canoe that would start in the spring.

(To Be Continued)

In The Old Days

Nuts For Cake Were Not Procured At Grocery Store

When more people lived in houses with attics, about this time of year more black walnuts, butternuts and hickory nuts used to be spread out on the floor for the husks to dry, says the Detroit Free Press. If the youngster who thinks it's a lot of trouble to run to the store for a package of nut meats when his mother wants to bake a cake had lived in those days, he would have had to get them by cracking nuts on an old-fashioned flatiron, and without smashing them to bits. And he would have had to like it, too.

Melvin Notes.

Don't forget the dance at Melvin on Wednesday, December 13th, with Al Mack and his Braemar Lodge Orchestra.

New Year's Eve there will be a Midnight Frolic at Melvin Hall, commencing at 12 midnight and continuing far into the early morning hours. Come and dance the New Year in at Melvin—a jolly good time assured everyone.

Mr. and Mrs. Jesse Ray and family were Sunday dinner guests of Mr. and Mrs. Ross Young.

Mrs. P. Daniels and son Neville of Calgary, are visitors at the home of Mr. and Mrs. Godfrey Carlson.

The dance put on by Miss Camp and her pupils to raise funds for the school's Xmas concert was a real success. We take this opportunity of thanking you all for your patronage.

Last Wednesday evening a party was held at Melvin Hall in honor of Mr. and Mrs. Wm. Brown, who have left to reside at Chilliwack, B.C. Games and contests were enjoyed after which the guests of honor were presented with a radio lamp. Lunch was served. Friends all wish Mr. and Mrs. Brown success and happiness in their new home.

We are very sorry to know that Mrs. P. G. Johnston is seriously ill in a Calgary hospital. We all wish her a speedy recovery.

Correction: the calf donated by Mr. Leeson is a Holstein not a Jersey.

How about that Heavy Winter Sweater? T. E. Scott has extra good values in this line, excellent quality.

Thanks.

The Canadian Legion takes this means of thanking the general public for their hearty support of the annual Poppy campaign. They also wish to express their appreciation of the work done by the Girl Guides and Wolf Cubs in selling the poppies.

Scout and Cub Corner.

Scouts will meet tonight at head quarters 7:30. Duty patrol: Stage a fun turn out is requested, as there is to be an Investiture ceremony.

Didsbury Health Society Notice

The Secretary will be at the Rosebud Hotel, Didsbury, Saturday, December 9th, 1939, from 2 to 4 p.m. to receive applications of new members and to collect dues. The books will be definitely closed on that date.

NEW MEMBERS WILL BE WELCOMED.

All dues should be sent to:
HUGH ROBERTS,
Secretary

Sewing materials for the Red Cross are now available and may be obtained by calling at Mrs. G. Young.

LOCAL & GENERAL

St. Cyprian's W.A. Bazaar will be held Saturday, December 9th. The place will be announced later.

Knox United Senior Ladies' Aid hold their annual Xmas Bazaar and Supper in their Church Basement this Saturday, December 2nd.

Keep warm! It's easy if you buy one of Scott's \$1.25 Windbreakers!

Miss Ann Jackson, of Calgary, formerly teacher on the Didsbury school staff, visited over the weekend with Dr. and Mrs. Liesemer.

Mr. Vic Friesen of the Royal Bank, who had been convalescing at his home in Medicine Hat, returned to his duties here on Monday.

Special Attraction at the movies next Monday and Wednesday—"Captain Fury," with Victor McLaglen and Brian Aherne, 8:30 p.m.

New 1940 Chevrolets were delivered this week to Lee Sanderman and N. S. Clarke. Both were Master de Luxe models.

A number of ladies of the Eastern Star motored to the farm home of Mrs. A. McInnis on Wednesday afternoon, where they were entertained to tea.

Dave Jenkins, who had been employed driving a caterpillar tractor on government roadwork during the season, returned to Didsbury on Tuesday.

Mr. and Mrs. W. K. Nelson, Robert and Billy Nelson, of Calgary, were weekend visitors at the home of Mr. and Mrs. Erven Rodney.

K. Roy McLean, Optometrist and Optician, at Rosebud Hotel, Monday morning, December 4, Wednesdays to Saturdays consult at 209-210, Southam Building, Calgary.

A meeting to organize a Hockey Club will be held tonight (Thursday) in the C.P.R. waiting-room at 8. Anyone, young or old, interested in hockey, invited to attend.

A. Melville Anderson, Optometrist and Optician, 224-8th Avenue West, established in Calgary since 1910, will be at the Rosebud Hotel on Wednesday afternoon, December 13.

Men's Heavy Winter Shirts can be had from \$1.00 up at T. E. Scott's.

Mr. George Burns and daughter Marjorie motored to Lloydminster on Tuesday last, having been called there on account of the illness of Mr. Burns' brother. They got there three hours before he passed away.

John Schneidmiller, who resides on Sec. 14, Tp. 31, Range 4, W. 5, is not and has no connection with the John Schneidmiller brought before the police court on a rebel charge as reported in the Pioneer last week.

Wit, wisdom and wisecracks in the modern manner at the movies this weekend, with Gladys George and Franchot Tone in "Love Is a Headache." Also William Boyd in a stirring Western "Bar 20 Justice."—excellent double-feature program.

Mrs. Russell Berscht was the holder of the lucky ticket for the W.A. of the Innisfail Branch of the Canadian Legion's "Hope Chest" drawn for at the annual banquet of the Veterans and their friends.—Innisfail Province.

Three carloads of young people from the Olds United Church were entertained by the Knox Young People's Society at their monthly social evening in the Church Hall on Monday evening. Mr. Lloyd Ringheim and his social committee had charge of the arrangements.

The dance given by the I.O.E. on Tuesday night, with Sonny Fry and his orchestra, proved to be a decided success. In the prize-drawing Mr. Dick Wallace won the \$25.00 prize, Mr. A. Brusso the \$15.00 prize and Mrs. Russell Berscht, Innisfail, the \$10.00 prize.

Reeve Archer, Councillor Percy Saunders and Secretary Brusso represented the Mountain View Municipality; and Reeve George Clark, Councillors Norman Clarke and Alex Hogg represented Westerdale M.D. at the Municipal Convention held in Edmonton last week. Reeve Clark gave an address on "Municipal Budgeting" at the convention.

Mountain View Notes

The November meeting of the W.I. was held at the home of Mrs. Ellis Barnes, when a large turn out was present. Mrs. Ed. Blain occupied the chair. After the regular business session splendid papers were given by Mrs. Worrall and Mrs. Bennie St. Clair on "Current Events" and "Public Health." Red Cross work was distributed to the convenors who in turn will distribute same in their territory.

The correspondence course on "Foods, Nutrition and Health" will be taken by the Mountain View branch. A new layette was completed and a member appointed to present it to a new baby in the district.

Musical selections by Mrs. J. Mulen and Miss Ruby Sproule concluded a pleasant afternoon.

A delicious lunch was served by the hostess. The December meeting will be held at the home of Mrs. Ed Blain.

Red Cross work has commenced in the district but full supplies are not available yet.

Balance of Fur Trimmed Coats to clear at greatly reduced prices—Townsend's Ladies' Wear.

Burnside Notes

Don't forget the chicken supper and bazaar will be held in Lone Pine Hall this Friday evening—December 1st.

Mr. and Mrs. Charles Welch Harold Hobbs and Mr. and Mrs. Hopkins, of Calgary, were Sunday visitors with Mr. and Mrs. Fred Thompson.

Mr. Ed Anderson, who has been spending some time at his home here, returned to Calgary last week.

We are sorry to hear that Mr. Percy Saunders had to be taken to the Didsbury Hospital on Monday for medical treatment. We wish him a speedy recovery.

Bring in your old skating outfit and trade it in on a new outfit at—T. E. Scott's.

NAMED TO HIGH AGRICULTURAL POST

PROF. K. W. NEATBY.

Head of the Field Crops Department of the University of Alberta, who has been selected by the Line Elevator Companies as Director of the newly formed Agricultural Division of the North-West Grain Dealers' Association.

Line Country Elevator Companies announced today that they have formed an agricultural division of the North-West Grain Dealers' Association. The new department will be under the direction of Professor K. W. Neatby.

"For some considerable time past the line elevators have been giving serious consideration to the most effective and constructive manner in which they could assist in agricultural problems. The proper personnel to undertake such a work was their first consideration and they are now pleased to announce the appointment of Professor Neatby who is an outstanding authority on field crops and agriculture generally," said G. W. P. Heffelfinger, president of the Line Elevators' Association. "He will be given a free hand in dedicating the work of this new department to the welfare and advancement of farming in Western Canada. Particular thought will be given to seed grain and crop improvement work."

Professor Neatby spent his early years in Saskatchewan and in 1924 obtained his B.S.A. degree at the University of Saskatchewan. He performed graduate work in cereal breeding at the University of Saskatchewan in 1925-26 and at the University of Minnesota in 1927-28 in genetics and plant pathology, where he obtained his M.S.A. degree. From 1926 until 1935 he was attached to the Dominion Rust Research Laboratory as cereal specialist and in 1935 was appointed head of the field crops department of the University of Alberta.
